Q. I have been advised that my pension is to be reduced in 60 days. What can I do to prevent this reduction?

Up to this time the response has been very gratifying and through this medium the committee is asking those members who have not as yet sent in their dues to please do so at the earliest possible time. In doing this, the present members are relieving the committee which will give them more time and effort to concentrate on new memberships.

Dorgan Packing Corporation To Open October 14 For Canning Sweet Potatoes

The Dorgan Packing Corporation is scheduled to open October 14 for the canning of sweet potatoes. Mr. Frank Gutierrez, plant manager, says they are now buying field-run potatoes at \$40 a ton. Last year they bought and canned 4,000 tons of the new potatoes and this season bids fair to have a good season.

Mr. Gutierrez says that this was the blackest shrimp season since the organization of the company but they plan to make it up in the canning of potatoes. Farmers are urged to increase the planting of slips.

The officers of Our Lady of the Gulf Catholic church are formulating plans for launching this campaign and it is hoped that no one will fail to give to this worthy cause. Keep this date in mind and when called upon be prepared to respond in a financial way.

PRIVATE FOREST PRACTICES GIVEN TO STATE FARMERS

Expert advice on the latest methods of proper forest management are being made available to Mississippi timberland owners by the State Forest and Park Service through the Forest Management Division, headed by M. O. (Mike) Stark and according to Forestry officials, these services are rendered without charge to any landowner in the State insofar as time will permit.

In announcing the service Mr. Stark pointed out that the stripping of all the growing timber from the land is like killing the goose that laid the golden eggs. "There is," he said, "nothing left for future production."

"The annual growth or the amount of new wood put on the trees each year," continued Mr. Stark, "determines the amount of return or interest to be expected from the forest investment. This return is reduced when fire or indiscriminate cutting destroys or removes the growing stock."

"Timber should be managed as a crop," he said, "taking out the mature trees, the defective, poor quality and slow growing ones and leaving the thrifty high quality and vigorous trees for future growth."

"Forest cover over fifty per cent of the land area of Mississippi or about 16,500,000 acres and of this vast area of forest land about 15,000,000 acres are privately owned. Hence, from these figures it is easy to see that timber production in Mississippi will depend on how well private landowners manage their woodlands."

Physically Handicapped Persons Given Employment

In connection with "National Employ the Physically Handicapped Week," October 6-12, 1946, as proclaimed by the President, the Tenth United States Civil Service Region (comprising the states of Louisiana and Mississippi) announced that 487 placements of physically handicapped persons were made in the Tenth Region during the period October 1, 1942, to July 31, 1946, 1143 of this number being handicapped veterans.

The Tenth Region further announced that more than 21,000 physically impaired veterans had been placed in federal field establishments throughout the United States up to July 31, 1946.

The Civil Service Commission has, for the past four years, been engaged in a positive program designed to bring about the maximum use of persons otherwise qualified but with physical handicaps.

Injured When Struck By Automobile

H. A. Davis, bookkeeper and auditor for the New Orleans Times-Picayune Company who was a guest at Hotel Reed was struck by a hit and run driver going east on Friday evening of last week at about 7:10 at the Bay St. Louis end of the traffic bridge. He was taken to the Kings Daughters Hospital and was later removed to the Baptist Hospital, New Orleans. Latest reports are that his injuries are not serious.

According to Constable Gerald Price, Pvt. A. E. LaRussa, Keesler Field and Pvt. Warren J. Doyle, of New Orleans, saw the accident and called the police and the ambulance. They told Price that the car did not stop. Sheriff John Egoft and Price immediately telephoned the officers along the coast to locate the car but as yet no report has been had.

Quarterly Report Issued By Postmaster

Leo Ford, postmaster, has released the following quarterly report, from July 1 through September 30 Stamp Sales \$9,648.67; Money Order Sales, \$87,596.24. For the same quarter in 1945 the stamp sales totaled \$8,490.75 and money order sales \$87,112.99. This is for 1946 an eighteen per cent increase. Mr. Ford said that there is also a forty per cent increase in the sale of revenue stamps but bond sales took a drop.

Can it be that the people of the United States have let their patriotism take a drop or are we all losing sight of the fact that our aid, financial and otherwise, is needed as greatly now as ever.

Waveland School Has Band

The wide awake, energetic head of the Waveland School, Miss Mary Perkins, has made it possible for the school to have a band, a real school band with 17 boys and girls enrolled. G. F. (Pat) Rooney, Bay High band director, is instructor and after a month's work the band played at the general assembly of the school on last Friday with a number of visitors present and gave a very creditable performance.

Miss Perkins enlisted the aid of the Mothers Club for financing the band and in this way is assured that this new unit of the school will be permanent.

SPECIAL COURT HEARING WAVELAND ELECTION CONTESTS

Honorable Homer Currie, Circuit Judge of the Thirteenth Judicial District of Mississippi, convened a Special Court under the Corrupt Practices Act of 1935, for the hearing of contests filed by Alphonse B. Favre, Jr., and John A. Garza on the Democratic Primary Election held in the Town of Waveland on August 3rd, 1946. This special tribunal was convened on Tuesday morning of this week and the hearing of these causes is still in progress.

In addition to the Presiding Judge the Municipal Election Commissioners of the Town of Waveland were supposed to sit and be a part of the Court, as set up under the Corrupt Practices Act. The Election Commissioners, composed of Mrs. C. F. Sauer, Edmund W. Gipson and Cornelius Herlihy, asked the Court to allow them to excuse themselves, for the reason that they had also served as Managers of the Election and that their actions would be before the Court.

The contests involve the offices of Marshall and Tax Collector, and Alderman of the First Ward. The contestant, Alphonse B. Favre, Jr., was defeated for the office of Marshall and Tax Collector, which election was won by C. O. Dufour; and John A. Garza was the unsuccessful candidate for the office of Alderman for the First Ward, the nomination in the primary having been won by William A. Ruhl.

These contests are based upon charges that parties were allowed to vote in the Municipal Election of the Town of Waveland who should have been disqualified by the Election Commissioners, and that absentee ballots numbering forty-one were allowed to be voted upon affidavits and applications that did not conform to the statutes.

Mrs. M. P. Stevens Dies Suddenly

Mrs. M. P. Stevens died suddenly at her North Beach home on Sunday morning. Mrs. Stevens attended the movie theater on Saturday night and left before the performance ended saying she was not feeling well and that she was suffering from a slight headache. Upon reaching home her headache continued becoming more severe and a physician was called. She later went to sleep and when Mr. Stevens took her morning coffee at 7 a. m. on Sunday morning, as was his custom, he found her dead. She evidently had died without a struggle. It was supposed that she died of a cerebral hemorrhage. The body was shipped from the Fahey Funeral Home Tuesday morning to her former home in Milwaukee, Wisconsin.

Mr. and Mrs. Stevens came here from Milwaukee about two years ago and lived in Waveland. They returned to Milwaukee and later came back to Bay St. Louis and were occupying the LaRose Cottage at the time of her death. She is survived by a daughter Miss Patricia Carney who was with her and a son, Army Air Corps. Mr. Stevens was in the piano business here. He and Miss Carney accompanied the body to Milwaukee.

AUTO LICENSES ON SALE

Auto licenses are on sale at the office of the Sheriff, John A. Egoft.

Under a recent statute enacted by the Mississippi Legislature, it is necessary that all personal taxes for the previous year be paid on any vehicle upon which application is made for a tag.

Before the Sheriff can issue any licenses for any motor vehicle, the person or persons making application must present to the Sheriff and Tax Collector, receipt showing the payment of personal taxes on said vehicle for the year 1945.

Sheriff Egoft is requesting that all individuals secure the necessary applications from his office, so that they may be filled out and presented, and the licenses secured prior to November 1st, 1946, which is the last date upon which licenses may be secured without imposition of a penalty.

May we suggest that the request of the Sheriff be followed in order that a last minute rush may be avoided.

Discussions for plans for the coming year were held with talks from representative heads of different branches of service from headquarters, with informal comments from various chapter members. Early plans for appointments of a Fund Chairman for 1947 and the campaign were also discussed.

The second day of the Institute was devoted to classes in instruction and practical demonstration on Junior Red Cross, Home Nursing, Water Safety, Accident Prevention, First Aid and Nutrition.

An interesting exhibit of Junior Red Cross Work by young people in the schools aroused much enthusiasm. A well balanced meal cooked in 20 minutes, offered as an idea for young wives of college veterans, living in trailer camps, was prepared, cooked and eaten by the class in nutrition.

Amendment of Social Security Act Affects State Program

Recent amendments to the Federal Social Security Act will mean, among other things, that the needy aged, needy children and needy blind people who can qualify under Federal and State laws for assistance, can be put on the payroll during the next two or three months. It does not mean that those already on the assistance payrolls will automatically receive an increase since those who have never been able to get on the rolls on account of lack of funds must be considered first. This procedure may take up all the increase in funds, according to Mr. W. F. Bond, Commissioner of the State Department of Public Welfare.

The County Welfare Agent of the county will give full information on this matter and together with the County Welfare Board of five members one from each beat, will pass on all applications for assistance.

Bingo Party

On Wednesday, October 2, the Waveland Mothers Club gave a Bingo party at Waveland School, which was a great success. The proceeds will be given to the school band.

October Meeting Of Central School P. T. A.

The topic for discussion at the October meeting of the Bay Central P. T. A. was the Education for Responsible Parenthood program. Mrs. Carl Smith who was the P. T. A. representative for the institute held in Jackson for the study of this program gave an introduction to the subject and its rapid growth in the state. She touched on its relation to the Health Workshop held here this summer. Mrs. Smith said that the work program was not for the instruction of parents only but for the training of youth as well for responsible parenthood.

Miss Smith then called on Miss Mary Perkins, Mrs. Verna Hobbs and Mrs. Celine Ashcraft who gave their evaluation of the workshop and what they individually had gained. Miss Perkins gave an exposition of the Nutrition group of which she was a part. Mrs. Hobbs told of the intensive and wide reading done by each teacher in the Mental and Emotional group where she met the consultants. Mrs. Ashcraft brought out clearly that teachers problems were not solved by the consultants but it all summed up to the teacher solving her own problems. Her problem, she said, was the tired child and out of this had grown some changes in her school work to take care of her own project. One was the taking of the school lunch money from each child and in this way she could see that they bought the proper food and not sweets and the other was seeing that the children had a rest period in her room where they took a short sleep.

The entire afternoon's program was a fitting introduction to the local group's year's theme "Character Education."

Mrs. Albert Biehl, president said the afternoon's program was offered as a birthday gift (October is the P. T. A.'s birthday month) and the association pledged ten dollars as a gift to the work of Education for responsible parenthood.

The attendance prize was won by the fourth grade. Mrs. Biehl expressed her appreciation of the splendid attendance and asked the mothers to please keep up the good record of attendance.

Little Theater Announcements

For the first time in local history, a three-act Broadway hit is about to run for five consecutive nights in Bay St. Louis. Noel Coward's "Hay Fever" will be presented by a Little Theater cast on the nights of Monday, October 21st, through Friday, October 25th, at the Carroll Avenue Playhouse.

Typical of all Noel Coward plays "Hay Fever" has had a long and successful stage history in all the major cities of England, Canada, and the United States. It was first produced at the Ambassadors Theater in London on June 6th, 1935, and its first American presentation followed on October 5th of that year at the Maxine Elliott Theater in New York. The role of Judith Bliss, to be played by Bea Smith, has been acted by such stage celebrities as Laura Hope Crews and Ina Claire, and the play itself has been a favorite for years in Little Theaters all over America.

YOUR SOCIAL SECURITY

SOcial security in the United States takes in a vast number of workers. Many of these workers are at a loss as to when to do what, in order to get maximum benefits provided under the law.

Information put out by the Social Security Administration so that older workers, veterans and those who have lost cards can keep themselves informed on proper procedure, is sometimes overlooked. Here is the latest data on your benefits, if you have a social security card.

There are two main times for action. If you become 65, you should contact a field office of the S. S. Administration. It will probably be to your advantage to file your claim for old-age and survivors' insurance even though you plan to continue working. If you do not file at 65 and then become ill, the benefit will not be as high as it would if you had filed promptly at 65.

The second time you should take immediate action is when a worker in your family dies. A member of the deceased worker's family should immediately contact the Social Security Administration for the deceased's insurance. Certain proofs should be presented to the administration—proof of marriage, proof of age, proof of death, and proof of paternity as to children—each should have a birth certificate.

Veterans who are returning to jobs, or with new jobs, who have lost their security numbers, can apply to the nearest social security field office for a duplicate. Any veteran with a new job and no number can obtain one by mail, but the administration prefers that the employee call in person at the nearest field office. Forms for mailing are available at most Post Offices.

AMERICAN YOUTH FORTUNATE

AMERICAN boys and girls—in the United States particularly—have a social growth and development more wholesome than that offered the youth of any other nation. They have opportunities for clean development in a wholesome environment that is not possible anywhere else in the world.

The normal life of the High Schoolers in our country, with the large metropolitan cities offering some unfortunate exceptions, includes school affairs, sports, dances, dates, the drug store, the movies, football trips, house parties, and other group activities in general. While all may not be just as it should be and some mistakes are made, the average conduct of our young people is amazingly good compared with those of European countries.

Of course, the Europeans have had wars and they have lived under adverse circumstances in the past few years, but the European way is different in peace or war time. It is inferior. It is far more involved than the average American boy or girl's life becomes at the age of sixteen.

In the first place, the Europeans have no counterpart to the drug stores of the Americans. Young boys and girls must go to a neighborhood pub for their drinks and there is no cola or crush to order. It's usually a mild or a bitter.

Until the young Englishman becomes old enough to take his mild beer, he has practically nowhere to go. He doesn't have a chance to get a milk shake, a soda, a cone or hot-dog. Only in London are the English just beginning to catch up.

France and Italy are as bad. Spain and the other Latin nations also drag behind in providing their youth with the modern, wholesome environment offered in the United States.

Of course, there is much room for improvement in some things here but, as far as the rest of the world is concerned, Americans are far ahead in giving American youth the chance to begin life with an education to fit them for life in this complex world.

TIMBER IMPROVEMENT FUNDS ARE AVAILABLE

Area Ranger Russell Lott of the Mississippi Forest Service calls attention to a recent announcement made by the State Committee of the 1946 Agricultural Conservation Program in which it stated that unlimited funds would be available on the construction of firebreaks on farm woodlands and also on timber stand improvement of farm woodlands. Ranger Lott stated that \$3.00 per acre would be allowed for timber stand improvement and 30c per hundred lineal feet for the construction of firebreaks on farm woodlands.

Ranger Lott, whose headquarters are at Pearlington is urging all agricultural workers in this county and the other counties in his area to take advantage of this offer and derive an additional income from improving their timber stands and constructing firebreaks. He also pointed out that it is possible for a farmer to earn as much as \$5.00 per acre for planting seedling trees.

According to the announcement from the State Committee all limitations on individual county allocation of funds have been removed and individual farm limits for assistance have been revised to provide unlimited assistance for the balance of the 1946 program for the application of triple superphosphate and liming materials, construction of terraces, flumes, stock ponds, ditches, and firebreaks, and for timber stand improvement of farm woodlands.

Ranger Lott advises that every farm woodland owner should contact immediately with the County Production and Marketing Administration Director and set up programs for their own farms.

\$170,000 State's Contribution to USO Funds

With the 1946 USO campaign in Mississippi officially in progress since October 7, county USO committee members and other volunteer workers throughout the state this week were bringing to a close the first week's efforts in the drive to raise \$170,000 as the state's contribution to funds for USO operations in 1947.

The active campaign will continue through this month, according to Buford Yerger, Jackson banker who is USO campaign chairman, but intensified efforts will be made to meet county quotas during the first two weeks of the campaign. Reports on the drive's progress in each county will be forwarded to state campaign headquarters and will be announced as soon as received, Mr. Yerger said.

The USO drive this month is part of a national campaign to raise \$19,000,000 in contributions to keep the organization going through 1947. Although USO originally had planned to discontinue its services to the armed forces at the end of this year it was requested by President Truman and army and navy leaders to continue through 1947.

The organization has been promised that it will receive its "honorable discharge" on December 31, 1947. But until that time it must continue at the insistence of those responsible for the morale of our servicemen because no other organization exists which can take over its services.

Military and civilian leaders are perfecting plans for some other organization which will replace USO after 1947, Mr. Yerger said. The form which this new agency will assume has not yet been determined, but in any event there will be no more USO after 1947, the state campaign chairman said.

Mississippi's quota of \$170,000 will be raised as a part of Community Chest campaigns in counties where such organizations exist and in others by separate drives by county USO committees.

Regular Meeting of Kings Daughters and Sons

At a regular meeting of the Bay St. Louis Circle of Kings Daughters and Sons held at the hospital on Monday, October 7, Mrs. Roger Boh, president announced that Mrs. Lee will be in Bay St. Louis on October 16, and 17 to take subscriptions and renew old ones to magazines, all commission thus made to go to the Hospital Sterilizing machine fund. Mrs. Boh says that the hospital finds it necessary to purchase a new sterilizing machine to replace the old one and a sterilizing machine is a must for the hospital and will cost \$1,400.

It is hoped that there will be many renewals and new subscriptions. Remember you get value received for your money and the hospital gains thereby. Mrs. Lucien Gex is chairman of the magazine campaign and if you fail to be contacted by Mrs. Lee call Mrs. Gex, phone 259, at her home and she will be glad to take care of your subscription. Anyone caring to send a special donation it will be very greatly appreciated.

The hospital has recently undergone a new coat of paint inside and out and is so shiny and clean it makes one want to be a patient.

Telephone Earnings are the Lowest in History

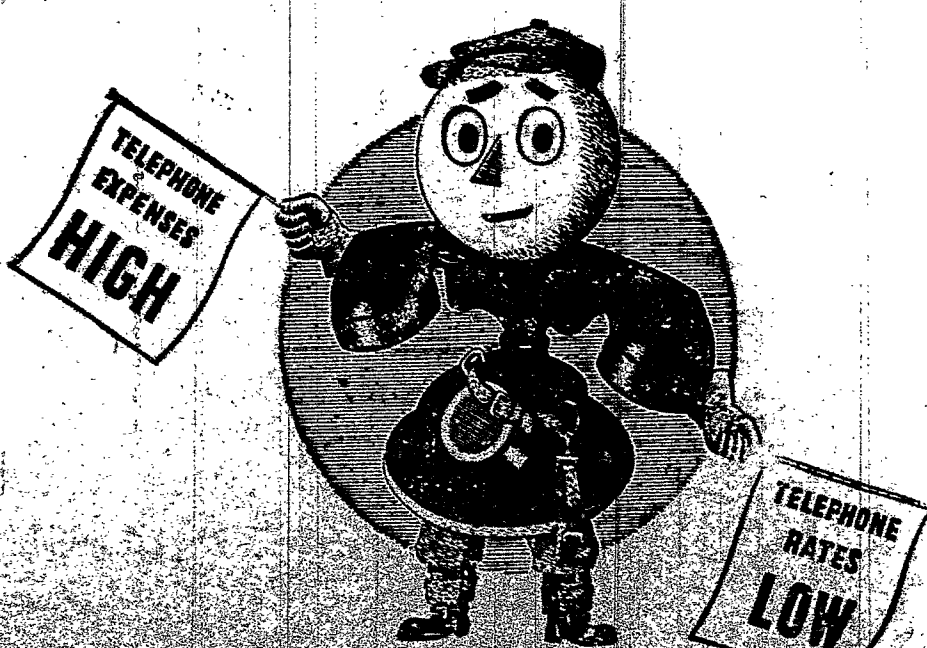

Your Telephone Company is doing the largest volume of business in its entire history, yet telephone earnings are still declining rapidly.

The reason is perfectly clear. Your telephone rate has remained the same for many years while the costs of furnishing you telephone service have increased. Wages, telephone materials, building costs, services, all have been going up so fast that—

the amount of money paid out to provide service is increasing faster than the amount taken in. Actually telephone earnings today are the lowest in our entire history!

As every business man knows, good service depends on reasonable earnings. That is basic. To render good telephone service and to continually improve and expand it, reasonable telephone earnings are essential.

Our public duty demands that we repeat these facts to you.

"NIGHT AND DAY"

A Gala Musical Hit.

Warner Bros. couldn't have chosen a better vehicle with which to celebrate their 20th anniversary of Talking Pictures than "Night and Day," Technicolor musical extravaganza which opens at the A. & G. Theatre Sunday and Monday. For the new film, which co-stars Cary Grant and Alexis Smith, is one of the most gala sound events of this, or any other season. Not only is the music the best of Cole Porter—which means the best of one of our top contemporary composers—but the use of Technicolor is absolutely stunning in effect. Add to this the topnotch performances by the film's co-stars as well as the inspired contributions of Monty Woolley and Jane Wyman and the smooth vocal renditions of Ginny Simms and Mary Martin (the latter sings the Cole Porter number which originally catapulted her to fame, "My Heart Belongs to Daddy,") plus a host of other first-rate Thespian and specialty performances and the result is a combination of talent and technique which is thoroughly unique and extremely rewarding.

Based on the career of Cole Porter (played by Cary Grant), "Night and Day" is equally as concerned with the composer's music as it is with his life. Strangely enough though Porter's background spoke lavishly of comfort, education and gracious living, the composer struggled for years to escape it—perhaps just because it was comfortable and too easy for his limitless energies; and certainly because he rebelled against the decision of his wealthy grandfather (portrayed by Henry Stephenson) to make the young Yale graduate a lawyer. Aiding the song writer in various capacities along the way to final success and personal happiness are a galaxy of top performers of stage, screen and radio including, besides those mentioned above, Eve Arden, Carlos Ramirez, Donald Woods, Victor Francen, Dorothy Malone and Geo. Zoritch. In their varied roles the entire company of players dispatch their acting and performing chores with remarkably consistent excellence.

Evidence of Our Faith in the Future of Mississippi

The second unit of Plant Eaton is well under way. It is being constructed to supply the mounting demands of our customers now served and to furnish power for the new industries which we have every confidence will locate in this area in the future. Construction of this unit, and building new lines and facilities in every community and rural area in which we operate, is backing this confidence with hard cash.

When the first unit of Plant Eaton, located on Leaf River, was completed in 1945, it became the largest steam electric generating plant ever constructed in Mississippi. Its whirling generator was able to turn out half a million kilowatt-hours of energy a day—more power than was generated for public use in Mississippi previously by all the state's electric generating plants combined.

By early 1947, with the completion of the second unit, that energy supply will be doubled and becomes available to every community in which we serve, over a modern interconnected transmission system.

This plant will be a tremendous force to aid Mississippi's development of her resources—to provide power for other new industries and the expanding operation of existing industries—for new stores and homes—for newly electrified farms—for Mississippi's onward march toward a brighter future.

Before Plant Eaton the greatest annual production for the public power supply of all the electric generating plants in the state was 168,800,000 KWH of electrical energy. The No. 1 unit of Plant Eaton alone is capable of producing over 180,000,000 KWH per year—this to be doubled with completion of the No. 2 unit.

Heroes Report Need For USO

Heroes of World War II remember the services performed by USO and recognize the need of the present nationwide drive to raise \$19,000,000 for keeping the or-

ganization going through 1947 in order to serve more than 1,500,000 men who will be in the services next year. Don Gentile, army fighter pilot and top ace of the European theater, says: "No more need for USO—? Try to tell that to the thousands of GIs still stationed in lonely spots all over the world! They can't come back to this country yet—but you can help send this country to them by giving to the USO."

And General McAuliffe, famed as the 101st Airborne Division commander who replied "nuts" to

GEN. MAULIFFE

the German surrender ultimatum at Bastogne, says: "In some ways, peace can be a tougher morale problem than war—to the thousands of GIs overseas in the services who don't know when they'll get back. That's why the USO today is as important as ever... perhaps more important. It needs our support."

Many communities are looking forward to the day when their highways and streets can be rebuilt to fit traffic.

Concrete pavement means the end of spring break-up ills—frost boils, mud and ruts. Seasonal load restrictions, dust and the inconvenience of constant road tinkering can be forgotten.

Concrete stands up under all legal loads in all weather. It permits speed with safety. It cuts driving costs to motorists. It reduces road maintenance costs.

Bert Childers
and the Melon Patch

Bert Childers put an ad in the Clarion the other day. Here's what it said:

"Planted more melons than I can eat this year. Stop by and pick as many as you want. All free."

As you can guess, plenty of folks sent their kids over and plenty of the parents came too. Stripped Bert's melon patch in no time. And as they went away, Bert treated the kids to lemonade, and offered the grownups a glass of ice-cold sparkling beer.

Naturally it puzzled some folks... but Bert explains: "It gives me a kick to share things when I can afford to—whether it's the melons, or the lemonade, or beer. I guess I just like to indulge my whims."

From where I sit, if we had more "indulgent" people like Bert—who believe in share and share alike, live and let live, this tired world would be a whole lot better
